# YOU PRO CLIMA DISCOVER THE PROJECT TOOLKIT!

## YOU PRO CLIMA CREATES COOL DIGITAL TOOLKIT FOR YOUTH LEADERS

Exciting news from the YOU Pro Clima project! We're making big moves to help young people like you fight climate change with a cool and easy-to-use digital toolkit. This toolkit is specially made for youth leaders and organizations to boost your community engagement skills and make a real impact.

### What's the Project About?

The YOU Pro Clima project aims to connect, empower, and engage young people from all around. Our goal is to boost your confidence and skills so you can tackle climate change in your communities with awesome local projects and advocacy efforts.

### What's in the Toolkit?

The toolkit is packed with amazing resources and is based on the best practices from our partnership. It's divided into three main areas:

- **Participation in Action** - Learn how to facilitate and lead participatory actions.
- **Advocacy Promotion** - Get tips on how to promote and support advocacy efforts.
- **Awareness Skills** - Develop key skills to raise awareness about climate change.

These areas are aligned with top European competency frameworks, ensuring you get the best training possible.

### Who is it For?

This digital toolkit is made for young people, youth leaders, and youth organizations. It's all about helping you gain knowledge, skills, and confidence to take environmental action in your area. Plus, it's designed to help you connect and work with peers from other European countries on climate change.

### Cool Features

- **Interactive Learning** - Dive into interactive and fun self-training sessions.
- **Self-Assessment Tools** - Check your progress with easy-to-use self-assessment tools.
- **Rich Resources** - Access a treasure trove of resources, including videos and design thinking tools.
- **Actionable Strategies** - Get practical strategies and examples to turn your ideas into real action.

### How We Made It

We developed this toolkit with feedback from our partners, and it's available in English and other languages. We'll be testing and improving it through workshops and online sessions, so it's always getting better.

### What's Next?

We'll keep refining the toolkit through local workshops and online events. Our goal is to make sure it's helpful for young climate leaders like you all across Europe. Stay tuned for more updates on the YOU Pro Clima digital toolkit and how it's helping youth take charge in the fight against climate change.
